

Asmeret Asefaw Berhe

University of California, Merced
Life and Environmental Sciences Group
4225 N. Hospital Rd #47, Castle
Atwater, CA 95301

Phone: (209) 228-4712
Fax: (209) 724-4459
Email: AABerhe@UCMerced.edu
Homepage: <http://www.aaberhe.com>

Education

- Ph.D. Biogeochemistry, **University of California, Berkeley** 2006
Advisors: John Harte, Margaret S. Torn, and Jennifer W. Harden.
- M.Sc. Political Ecology, **Michigan State University** 2000
Advisor: Eckhart Dersch.
- B.Sc. Soil and Water Conservation, **University of Asmara** 1996

Professional Experiences

- Associate Professor, Soil Biogeochemistry, **University of California, Merced** 2014 - Present
Life and Environmental Sciences, School of Natural Sciences
Environmental Systems Graduate Group
Faculty affiliate, Sierra Nevada Research Institute (SNRI)
- Visiting Professor, **Eidgenössische Technische Hochschule (ETH), Zürich** 2016
- Assistant Professor, Soil Biogeochemistry, **University of California, Merced** 2009 - 2014
- President's Postdoctoral Fellow 2006-2008
Department of Plant Sciences, **University of California, Davis** *Mentor:* Johan Six.
Dept. of Earth and Planetary Sciences, **Uni. of California, Berkeley** *Mentor:* Jillian Banfield.
- Graduate Student Researcher, Department ESPM, **University of California, Berkeley** 2000-2006
- Guest Researcher, Geological Division, **US Geological Survey, Menlo Park, CA** 2002-2006
- Graduate Student and Guest Researcher, **Lawrence Berkeley National Laboratory** 2001-2005
- Research Assistant, Department of Resource Development **Michigan State University** 2000

Awards and honors

- New Voice** in Science (*National Academies of Science, Engineering, and Medicine*) 2018
- Presidential Award for Science and Engineering Mentoring (PAESMEM) to the Earth Science Women's Network (ESWN) (Berhe was in Leadership Board) 2018
- Woman we admire, UC Merced Chancellor's Advisory Committee on the Status of Women 2018
- Outstanding Women Faculty Leader, UC Merced 2016
- National Science Foundation **CAREER** award 2014
- Young Investigator Award, Sigma Xi Chapter 2014
- Hellman Fellow, Hellman Family Foundation Award 2011

Sigma Xi, The Scientific Research Society	2009
University of California President's Postdoctoral Fellowship	2006-2008
NASA Earth System Science Graduate Fellowship	2003-2006
Young Fellow, Millennium Ecosystem Assessment	2002-2005
Zayed International Prize for the Environment, Zayed International Foundation for the Environment United Arab Emirates (co-recipient of \$ 300,000 for Millennium Ecosystem Assessment)	2005
Fellow, University of California Institute for Preparing Future Faculty	2005
Regents Fellowship, University of California - Travel Grants	2001,02,03,05,06
Carolyn Meek Memorial Fellowship (Soil Science), UC Berkeley	2003-2004
Chancellor's Predoctoral Fellowship, UC Berkeley	2000-2003, 2005
College of Agriculture and Natural Resources Scholarship, Michigan State University	1999-2000

Other professional training

Molecular Geomicrobiology: From Genomes to Ecosystems, UC Berkeley	2005
Use of Radiocarbon in Ecology and Earth System Science, UC Irvine	2005
Institute for Preparing Future Faculty, UC Berkeley	2005
Stable Isotope Ecology summer short course and Laboratory, University of Utah	2004

Publications

(* = student or postdoc author)

In Progress or Accepted with Revisions

84. Delgado-Baquerizo, M; P Reich, C Trivedi, D Eldridge, S Abades, F Alfaro, F Bastida, **AA Berhe**, N Cutler, A Gallardo, L García-Velázquez, S C Hart, P Hayes, J-Z He, Z-Y Hseu, H-W Hu, M Kirchmair, S Neuhauser, C Pérez, S Reed, F Santos, B Sullivan, P Trivedi, J-T Wang, L Weber-Grullon, M Williams, B Singh. Multiple elements of soil biodiversity drive ecosystem functions globally. Submitted. *Nature*
83. Stutz, Kenton*; K Kaiser; J Wambsganss; F Santos*; **AA Berhe**; F Lang. Lignin from white-rotted European beech deadwood and soil functions. In review. *Biogeochemistry*
82. Bastida, F, C Garcia, N Fierer, D.J. Eldridge, M.A.Bowker, S. Abades, F. D. Alfaro, **AA Berhe**, N A. Cutler, A Gallardo, L Garcia-Velazquez, S. C. Hart, P. E. Hayes, T Hernandez, Z-Y Hseu, N Jehmlich, M Kirchmair, H Lambers, S Neuhauser, V M. Pena-Ramirez, C A. Perez, S C. Reed, F Santos*, C Siebe, B W. Sullivan, P Trivedi, A Vera, M A. Williams, JL Moreno, M. Delgado-Baquerizo. Unravelling the direction and magnitude of the priming effect in soils across the globe. Submitted. *Nature Ecology and Evolution*
81. Liu, Chun*, Z Li, **A.A. Berhe**, G Zeng. An overview of approaches for identifying sources of eroded organic matter: isotopes, biomarkers, and spectroscopy. Submitted. *Earth Science Reviews*
80. Masiello, C.A. and **A.A. Berhe**. First Interactions with the Hydrologic Cycle Determine Charcoal's Fate in the Earth System. Submitted. *Biogeochemistry*
79. **Berhe, A.A.** CM Khoi, H van Asperen*, J Gillabel, J Six. Differential effects of temperature and water content on deep and near-surface soil CO₂ concentration and fluxes during wetting and drying of soils. In revision. *Biogeochemistry*

78. Williams, E.K.*, M.L. Fogel, **A.A. Berhe**. Nonexchangeable $\delta^2\text{H}$ of bulk soil organic matter as precipitation proxy? In review. *Organic Geochemistry*
77. **Berhe, A.A.** and T. A. Ghezzehei. Generalized Model for the Temporal Evolution of the Carbon Sequestration Potential of Eroding Watersheds . In *Multi-scale Biogeochemical Processes in Soil Ecosystems: Critical Reactions and Resilience to Climate Changes*. Y. Yang, M. Keiluweit, N. Senesi and B. Xing (Eds.). Biophysico-Chemical Processes in Environmental Systems, IUPAC - sponsored Wiley book. Volume 5. **INVITED** (due 2018)
76. Abney, R*, L. Jin*, **A.A.Berhe**. Landform position and combustion temperature control decomposition rate of pyrogenic organic matter. Submitted. *Catena*

Invited talks

65. Lateral transport of SOM through landscapes. **KEYNOTE TALK**. *International Symposium on Soil Organic Matter (SOM7)*, Adelaide, Australia, 6th-11th October, 2019. (forthcoming)
64. Strategies for Improving Workplace Environment in the Geosciences. *European Geosciences Union*. 7-12 April, 2019. Vienna, Austria – with Erika Marin-Spiotta. (forthcoming)
63. Climatic Controls on Soil Organic Matter Dynamics. **KEYNOTE TALK**, *12th Annual University of California, Davis Graduate Student Symposium in Ecology (GSSE)*. February 9, 2019. (forthcoming)
62. Post-fire erosion, and its implications for bulk C and PyC dynamics in soil. *Soils Across Latitudes* (A Joint meeting of the US Soil Science Society of America, Canadian Society of Soil Science, and the Mexican Society of Soil Science). January 6-9, 2019, in San Diego, California
61. How political instability in the Horn of Africa influenced my educational and scientific journey. *The Story Collider Presents: Stories from AGU*. Carnegie Institution of Washington. Washington, DC. December 13, 2018.
60. Linking biogeochemical and geomorphic processes to further our understanding of organic matter dynamics in the critical zone. *American Geophysical Union Annual Fall meeting*. December 2018
59. Post-fire erosion as an important control on Pyrogenic carbon dynamics in soil. *American Geophysical Union Annual Fall meeting*. December 2018
58. Soil carbon dynamics in eroding landscapes: implications for stock, persistence and stabilization mechanisms of organic matter. Argonne National Laboratory. November 1, 2018
57. Geomorphic and climatic controls on soil organic matter dynamics. Department of Geography, University of Colorado Boulder. October 12, 2018
56. Post-fire transport and persistence of pyrogenic carbon in soil. *The Institute of Arctic and Alpine Research (INSTAAR)*, Boulder, CO. October 11, 2018
55. Soil erosion and land degradation: implications for global change and regional development. Department of Geography, *University of Oregon*, May 24, 2018
54. What's soil erosion got to do with carbon sequestration? Earth and Atmospheric Sciences Stout Lecture. *University of Nebraska, Lincoln*, April 19, 2018
53. Soiling Chemistry. Theoretical and computational Chemistry Group. *University of California, Merced*. April 12, 2018.
52. My academic journey. Women we admire Speaker Series. *University of California, Merced* Chancellor's Advisory Committee on the Status of Women. March 22, 2018.
51. Geochemical and mathematical constraints on the carbon sequestration potential of eroding watersheds. *American Chemical Society Spring meeting*. New Orleans, LA; Mar 18-22, 2018.
50. Soil carbon dynamics in eroding landscapes. University of Illinois, Urbana-Champaign and Intensively Managed Landscapes Critical Zone Observatory webinar. February 16, 2018.
49. Post-fire transport and persistence of pyrogenic carbon in soil. A Bren Seminar, at the Bren of Environmental Science and Management; *University of California, Santa Barbara* . February 5, 2018

48. Geomorphic controls on soil organic matter dynamics: role of soil erosion in soil carbon storage and stabilization *University of California, Davis*, Soils and Biogeochemistry Graduate Group Seminar Series. November 27, 2017
47. My scientific journey. I CAN PERSIST Research Lab, STEM Career Development Speaker Series. *Indiana University*, November 17, 2017
46. Post-fire soil carbon dynamics: transport of particulate and dissolved pyrogenic carbon in fire-affected soils. *Utah State University* Ecology Center's Ecology Seminar Series. October 12, 2017
45. What's soil erosion got to do with carbon sequestration? *Utah State University*, Ecology Center sponsored Public talk. October 11, 2017
44. Post-fire soil carbon dynamics: implications on movement of particulate and dissolved pyrogenic carbon. *California State University, Fresno*, Biology Department Seminar. October 6, 2017
43. DEI @ UCM: The STEM Perspective. A Panel and Discussion on The Critical Politics of Diversity in the Multiversity: Towards Africana Studies in the UC System. *University of California, Merced*. September 29, 2017
42. Drying-induced consolidation, organic matter decomposition, and restructuring of soil aggregates. *E. O. Lawrence Berkeley National Laboratory*, Earth and Environmental Sciences Climate Brownbag Seminar. February 13, 2017
41. Interactive effects of fire and soil erosion on soil organic matter dynamics. Co-sponsored by the *Yi-Fu Tuan Lecture*, Geography Department and Solving Earth System Problems: *UW, Madison Distinguished Speakers Lecture and Career Talks Series*. *University of Wisconsin, Madison*. February 10, 2017
40. Post-fire soil carbon dynamics: transport of particulate and dissolved pyrogenic carbon in fire-affected soils. Biogeochemistry and Environmental Sciences and Sustainability Seminar Series. *Cornell University*. January 27, 2017
39. Post-fire soil carbon dynamics: implications on movement of particulate and dissolved pyrogenic carbon. The Agricultural and Environmental Sciences Graduate Group Seminar. *University of California, Davis*. October 24, 2016.
38. Geomorphic and climatic controls on soil organic matter dynamics. The Department of Environmental Systems Science *Eidgenössische Technische Hochschule (ETH), Zürich*, Switzerland. July 7, 2016
37. Mechanisms governing response of soil organic matter to increase vs. decrease in precipitation. Institute of Earth Surface Dynamics Faculty of Geosciences and Environment at *The University of Lausanne*, Switzerland. June 23, 2016
36. Dynamics of soil organic matter in eroding landscapes. Inter-institute colloquium of Soil Ecology, Hydrology, and Geology; *University of Freiburg*, Germany. June 9, 2016
35. Role of erosional redistribution on persistence of bulk and pyrogenic carbon in the soil system. Biogeochemistry lunch seminar. Geologisches Institut. *Eidgenössische Technische Hochschule (ETH), Zürich*, Switzerland. May 17, 2016
34. Persistence of pyrogenic carbon in dynamic landscapes: interactive effects of fire and erosion. Department für Ökologie und Ökosystemmanagement, *Technische Universität München*, Germany. April 4, 2016

33. Interactive effects of fire and erosion on soil organic matter dynamics. Department of Environmental Systems Science Institute of Agricultural Sciences *Eidgenössische Technische Hochschule (ETH), Zürich*, Switzerland. February 25, 2016.
32. Lateral redistribution of pyrogenic carbon by soil erosion. Department of Geography, *University of Zurich*, Switzerland. February 10, 2016.
31. Interactive effects of Fire and Erosion on Dynamics of Soil Organic Matter in Fire-affected Upland Forest Ecosystems. Department of Soil, Water and Environmental Science Colloquium. *The University of Arizona*. November 16, 2015.
30. Landscape Biogeochemistry: how soil erosion controls storage, stabilization and destabilization of soil organic matter in dynamic landscapes. US-China Critical Zone Observatory (CZO) and Eco-partnership Conference *Purdue University*, West Lafayette, In. October 22 - 24, 2015.
29. Climate change: *what's soil got to do with it?*. Eritrean community center in Santa Clara, CA. September 11, 2015.
28. Dynamics of soil organic matter in eroding landscapes. Geology and Geophysics Seminar Series. College of Earth, Ocean, and Atmospheric Sciences *Oregon State University*, Corvallis, OR. April 9, 2015
27. Drought induced rapid carbon loss from high elevation meadows in the Sierra Nevada Mountains. Department of Biology Colloquium; *California State University, Fresno*, Fresno, CA. March, 20 2015
26. Drought leads to rapid carbon loss from high elevation meadows. UC Merced Sierra Nevada Research Institute Symposium. March 2014.
25. Stabilization mechanisms of soil organic matter eroded from low order catchments in the Southern Sierra Nevada Mountains. *American Geophysical Union Annual Fall meeting*. December 2013.
24. Persistence of soil organic matter in dynamic landscapes. Department of Earth Sciences. *University of Pennsylvania*. November 22, 2013.
23. Storage and Stabilization of soil carbon in eroding landscapes. *Memorial University*, St. John's Newfoundland, Canada. October 11, 2013
22. Stability and stabilization mechanisms of soil organic matter in eroding landscapes. Sustainable Soils and Grassland Systems Department; *Rothamsted Research*, North Wyke; Okehampton, United Kingdom. July 8, 2013
21. Experimental investigation of geochemical cycles: persistence of soil organic carbon in dynamic landscapes. *Annual Meeting of the Swiss Geomorphological Society*. Uni of Basel, Basel, Switzerland. June 26, 2013
20. Stabilization mechanisms of soil organic matter in eroding watersheds: Implications for erosion-induced terrestrial carbon sequestration. Department of Natural Resources and Environmental Science. *University of Nevada, Reno*. April 24, 2013.
19. Effect of Rainfall Amount and Timing on Soil Organic Matter Dynamics. The Center for Accelerator Mass Spectrometry and Chemical Sciences Division. *Lawrence Livermore National Laboratory*. March 22, 2013
18. Erosion of bulk and pyrogenic C from upland forested Sierra Nevada ecosystems. *American Geophysical Union Annual Fall meeting*. December 2012.

17. Lateral Transport of Black vs. Bulk SOM with soil erosion. *European Geosciences Union Annual Meeting*. Vienna, Austria. April 2012 .
16. Mechanisms of Soil Organic Matter Stabilization Along An Eroding Toposequence. *ASA-CSSA-SSSA Annual Meeting*. October 2011.
15. Stabilization Mechanisms of Soil Organic Matter in Eroding Watersheds: Implications for Erosion-induced Terrestrial Carbon Sequestration. **KEYNOTE LECTURE**, *European Geosciences Union Annual Meeting*. Vienna, Austria. April 6, 2011.
14. Contingency in the Direction and Mechanics of Soil Organic Matter Responses to Increased Rainfall. Geography Department Seminar, *University of Basel; Basel Switzerland*. March 30, 2011.
13. Response of Soil organic Matter to Projected Changes in the Amount and Timing of Rainfall. Department of Plant Sciences. *University of California, Davis*. January 31, 2011.
12. My academic journey as a woman scientist. UC Merced Women in Science and Engineering (WISE) speaker series. September 2010.
11. Using ¹³C-NMR and Radiocarbon to Determine Mechanisms of Soil Organic Matter Stabilization in Dynamic Landscapes. *Ecological Society of America Annual Meeting*, Albuquerque, NM. August 4, 2009.
10. Mechanisms of Soil Organic Matter Stabilization in Eroding Landscapes. *National Cooperative Soil Survey National Conference*. May 13, 2009 Las Cruces, NM.
9. Response of the Soil System to Climate Change: Effect of Anticipated Changes in Amount and Timing of Rainfall In California to Soil Organic Matter Dynamics. *California State University, Stanislaus*. April 10, 2009
8. Effect of anticipated changes in amount and timing of rainfall on soil organic matter dynamics. *National Center for Atmospheric Dynamics*. Boulder, CO. March 23, 2009
7. The Upside of Erosion: Global Change Implications of Soil Degradation. *School of Natural Sciences, University of California, Merced*. April 3, 2008.
6. Significance of Soil Erosion for Terrestrial Carbon Sequestration. *Energy and Resources Group, University of California, Berkeley*. February 20, 2008.
5. Contribution of Soil Erosion to Atmospheric Carbon dioxide Balance. *School of Natural Sciences, University of California, Merced*. October 31, 2007.
4. Global Climate Change. *Science and Math Seminar day, The French American International High School. San Francisco, California*. March 8, 2007.
3. Coupling Geomorphic and Ecosystem Processes: How Soil Erosion Regulates Carbon Sequestration. *Geography Department. University of California, Santa Barbara*. March 1, 2007.
2. Decomposition of Soil Organic Matter Along a Toposequence. *Department of Earth and Environmental Sciences. Lehigh University*. February 16, 2007.
1. Geomorphic Controls on Soil Organic Carbon Stability and Mechanisms of Stabilization. *Department of Earth Sciences, Rice University*. February 1, 2007.

Research Grants

External Funding

- 2019 - Present** . California Climate Change Research Program. Mobile Biochar Production for Methane Emission Reduction and Soil Amendment.
(\$ 3,040,239.47, Approved for funding December 2018).
P.I. G. Diaz, co-PIs A.A. Berhe, T.A. Ghezzehei, R. Ryals, C. Keske, Y. Chen
- 2019 - Present** . Lawrence Livermore National Laboratory (LLNL) Laboratory Directed Research and Development (LDRD). Deeply Rooted: Evaluating Plant Rooting Depth As a Means for Enhanced Carbon Sequestration
(\$ 202,656 to UCM/Berhe, Approved for funding November 2018)
P.I. E.E. Nuccio, co-PIs J Pett-Ridge, K.J. McFarlane, A. Visser, E.J. Oerter, A.A. Berhe
- 2018 - Present** . University of California National Laboratory Fees Research Program. *Climatic Controls on Subsoil Organic Carbon Dynamics* (**\$ 135,216**) - two year in-residence fellowship at Lawrence Livermore National Laboratory for Ph.D advisee Kimber Moreland
P.I. A.A. Berhe; DOE lab mentor: Karis Mcfarlane
- 2018 - Present** . National Science Foundation. *Student Travel Support to Advance US Soil Science* (**\$ 15,000**)
P.I. A.A. Berhe; co-PI A.E. Sztein
- 2017 - Present** . National Science Foundation. ADVANCE Partnership: *From the Classroom to the Field: Improving the Workplace in the Geosciences.* (**\$ 1,100,000**)
PI. E Marin-Spiotta; co-PIs. AA Berhe, BM Williams, M Hastings, R Barnes, B Schneider, A Mattheis.
- 2017 - Present** Bavaria California Technology Center (BaCaTeC), Internationalization of the High-Tech-Initiative. *Role of nano-particles for the fixation and release of macronutrients in soils.* (**€8900**)
PIs. S Doetterl and AA Berhe
- 2016 - Present** University of California President's Research Catalyst Awards. *UC Consortium for Drought and Carbon Management.* (**\$1,694,000**)
P.I. S. Ying, co-PIs E Brodie, K Scow, AA Berhe, PS Nico, TA Ghezzehei, MS Torn, WJ Riley, S Parikh
- 2016 - Present** National Science Foundation. Collaborative Research: Vulnerability of carbon in buried soils to climate change and landscape disturbance (**\$776,819**)
P.I. E. Marin-Spiotta, co-PIs AA Berhe, J Mason, M-A de Graaff
- 2016 - Present** Department of Energy. Experimental and modeling investigation of the impact of atmospherically deposited phosphorus on terrestrial soil nutrient and carbon cycling, and ecosystem productivity (**\$200,000**)
P.I. P. O'Day, co-PIs S Hart, M Fogel, AA Berhe
- 2015 - 2017** National Park Service-California Cooperative Ecosystem Studies Unit. Lateral transport of soil and associated soil organic matter due to the Rim Fire at Yosemite National Park (Phase III).(**\$3516**)
P.I. AA Berhe, co-PI T Kuhn
- 2015 - 2017** National Park Service-California Cooperative Ecosystem Studies Unit. Lateral transport of soil and associated soil organic matter due to the Rim Fire at Yosemite National Park (Phase

II).(\$4022)

P.I. AA Berhe, co-PI T Kuhn

2014 - Present National Science Foundation. CAREER: Persistence of soil organic matter in dynamic landscapes: interactive effects of fire and erosion. (**\$478,789**)

P.I. AA Berhe

2014 - 2017 National Park Service-California Cooperative Ecosystem Studies Unit. Lateral transport of soil and associated soil organic matter due to the Rim Fire at Yosemite National Park (Phase I).(\$**5008**)

P.I. AA Berhe, co-PI T Kuhn

2013-2017 National Science Foundation. Alterations of soil physical and geochemical properties induced by low-intensity fires. (**\$449,090**)

P.I. TA Ghezzehei, co-PIs AA Berhe, M. Berli

2013 - 2017 US Department of Agriculture. NIFA, AFRI. Phosphorus cycling in soils: Assessing the impact of agricultural practices on phosphorus availability and loss using oxygen isotopes of phosphate. (**\$289,845**)

P.I. A Paytan, co-PIs AA Berhe, K Scow

2013 - Present National Science Foundation. CZO: Critical Zone Observatory – Snowline Processes in the Southern Sierra Nevada. (**\$4,899,998**)

P.I. R. Bales, co-PIs M Conklin, SC Hart, M Goulden, C Tague; AA Berhe collaborator, senior personnel

2013 - 2015 Almond Board of California, Opportunities and Constraints for Large Scale Use of Dairy Manures in Almond Orchards (**\$60,370**)

P.I. P Brown, co-PIs AA Berhe, D. Smart, T.A. Ghezzehei, S.C. Hart, D.L. Schellenberg

2012 - 2015 National Science Foundation. Sources of soil organic matter transported by soil erosion in fire-prone upland ecosystems of the Sierra Nevada. (**\$75,000**)

P.I. AA Berhe, co-PIs Stephen C. Hart, Dale Johnson (with Carolyn Hunsaker, Caroline Masiello)

2012-2013 National Science Foundation. CZO: Critical Zone Observatory--Snowline Processes in the Southern Sierra Nevada. (**\$1,000,000**)

P.I. R. Bales, co-PIs M Conklin, J Hopmans, M Goulden, C Tague; AA Berhe collaborator, senior personnel

2011 - 2012 Hellman Research Grant. Establishing of baseline pedological conditions for long-term study on effect of forest management practices on soil organic matter dynamics. (**\$20,000**)

P.I. AA Berhe

2009 - 2011 Kearney Foundation of Soil Science, University of California. Spatial and temporal dynamics of deep soil gaseous and soluble element fluxes from new vs. old organic matter. (**\$ 89,950**).

P.I. Johan Six, co-PI A.A. Berhe

2007 - 2010 US Department of Agriculture, CSREES, Soil Processes Program. Reactivity, Aggregation and Transport of Nanocrystalline Sesquioxides in the Soil System. (**\$ 123,000**)

P.I. AA Berhe

2003 - 2006 US Department of Agriculture, NRI Soils and Soil Biology Program . Stability and Loss Potential of Buried Soil Organic Carbon. (**\$ 310,000**).

P.I. John Harte; co-PIs Margaret S. Torn, Jennifer W. Harden, Lead Author A.A. Berhe

2003 - 2004 National Park Service, Coastal Research Grant. Stability and Loss of Buried Soil Organic Carbon in a Depositional Toposequence on a Coastal Watershed in Tennessee Valley, California. (**\$1,000**)
P.I. A.A. Berhe

1999 - 2000 International Campaign to Ban Landmines (ICBL), Landmine Monitor Research Grant, (**\$4,200**)
P.I. A.A. Berhe

Internal UC Merced Funding

2018 - Present UC Merced Graduate Division's Interdisciplinary Small Grants Program. "Mobility of Char in the Soil System" (**\$3,000**).
Lead Authors: F. Santos and J. Yan
PIs AA Berhe, TA Ghezzehei, F. Blanchette

2018 - Present UC Merced Blum Center. "Engineering agricultural lands for soil health and groundwater sustainability" (**\$5,000**).
PI. N. Bogie, co-PIs AA Berhe and TA Ghezzehei

2017 - Present University of California Merced Faculty Research Award. Role of Fe Oxides in Soil Carbon Sequestration. (**\$14,997**)
PI. AA Berhe, co-PIs. Samuel J. Traina, and Peggy O'Day

2016 - Present University of California Merced Faculty Research Award. Climatic controls on the biogeochemical cycling of phosphorous in the critical zone (**\$10,000**)
PI. SC Hart, co-PI. AA Berhe

2015 - Present UC Merced, Environmental Analytical Laboratory. Role of fire and erosion on soil organic matter dynamics, (**\$2000**)
P.I. AA Berhe

2013-2015 UC Merced Graduate Research Council. Fate of Pyrogenic Carbon in Eroding Upland Forest Ecosystems. (**\$4,710**)
P.I. AA Berhe

2011-2015 UC Merced Sierra Nevada Research Institute (SNRI). Potential of biochar for recapturing nutrients from dairy waste and improving carbon sequestration potential of agricultural soils, (**\$2,000**)
P.I. AA Berhe

2012-2013 UC Merced Graduate Research Council. Impact of Erosion on Carbon Cycling in the Western Sierra Nevada Mountains, California. , (**\$10,000**)
PI AA Berhe, co-PI Stephen C. Hart

2011 - 2012 UC Merced Graduate Research Council. The effect of fire on soil aggregation and physical stability of soil organic matter. , (**\$10,000**)
PI AA Berhe, co-PI Teamrat A Ghezzehei

2010 University of California, Merced Academic Senate's Chancellor's Award Towards a better understanding of the effects of summer convective precipitation pulses on soil moisture and carbon dynamics in a high elevation ecosystem, (**\$5,000**)
PI. A.A. Berhe

2010 Graduate Research Council, UC Merced . Towards a better understanding of the effects of summer convective precipitation pulses on soil moisture and carbon dynamics in a high elevation ecosystem, (**\$4,956**)
PI. A.A. Berhe

Instrument Time at National User Facility (through competitive grants)

2018-2019 User Grant. Environmental Molecular Sciences Laboratory, Pacific Northwest National Laboratory. Soil organic phosphorus: speciation, abundance, and ecosystem implications in a changing climate. (Use 300, 500 and 750 MHz NMR spectrometers, EPR, and FT-ICR Mass Spectrometer over 6 months, equivalent monetary value of award = \$49,911). P.I. AA Berhe; co-PIs: Morgan Barnes (lead author), Stephen C. Hart, Peggy O'Day.

2011-2012 User Grant. Environmental Molecular Sciences Laboratory, Pacific Northwest National Laboratory. Interactive Effects of Fire and erosion on soil organic matter dynamics. (Use of 300Hz, NMR spectrometer for four weeks). P.I. AA Berhe, Deoyani Sarkhot co-PI

2007-2008 User Grant. EMSL, Pacific Northwest National Lab. Effect of Increasing rainfall and temperature on molecular architecture of soil organic matter. (Use of 300Hz NMR spectrometer for 5 weeks).
P.I. A.A. Berhe, Co-PIs Mark Waldrop and Jillian F. Banfield

2004 User Grant. Environmental Molecular Sciences Lab, PNNL. Stabilization of soil organic matter: land use, erosion and burial (Use of 300Hz and 500Hz NMR spec. at EMSL for five weeks).
P.I. Margaret S. Torn, Co-PIs A.A. Berhe and Erika Marín-Spiotta

Fellowships and Scholarships

2006-2008 University of California President's Postdoctoral Fellowship (\$ 80,000)

2003-2006 NASA Earth System Science Graduate Fellowship (\$ 72,000)

2001,2,3,5,6 Regents Fellowship, University of California - Travel Grants (\$ 3,450)

2005 NSF Travel grant, Frontiers in Exploration of the Critical Zone meeting (\$ 500)

2003-2004 Carolyn Meek Memorial Fellowship (Soil Science), UC Berkeley (\$ 14,000)

2000-2003, 2005 Chancellor's Predoctoral Fellowship, UC Berkeley (\$ 84,000)

1999-2000 College of Agriculture and Natural Resources Scholarship, Michigan State University (\$ 1,000)

1999-2001 Graduate Opportunity Fellowship, Michigan State University (\$ 3,000)

Teaching Experience

Undergraduate Courses

Fundamentals of Soil Science (ESS 170, ES 292), UC Merced	2011, 2013, 2015, 2017, 2018
Soil Science Laboratory (ESS 170L), UC Merced	2011, 2013, 2015, 2017, 2018
Soil Foundations of Terrestrial Ecosystems (ESS 70), UC, Merced	2009
Earth Resources and Society (ESS 10), UC Merced	2012, 2013, 2014, 2015
Critical Zone Science (ESS 192), UC Merced	2016, 2018

Graduate Courses

Dynamics of Organic Matter in Soils and Sediments (ES 222), UC Merced	2011, 2013, 2015, 2017
Advanced Topics in Terrestrial Biogeochemistry (ES 292), UC Merced	2011, 2012
Soil Chemistry (ES 299) UC Merced	2010
Terrestrial Biogeochemistry (ES 299) UC Merced	2009

Special Course

Critical Zone and Ecosystem Dynamics; Gran Paradiso Summer School; Ceresole Reale (Piedmont, Italy), July 10-18 (Forthcoming)	2018
---	------

Guest lectures

The World at Home (Soil Science), CORE 1, UC Merced (Fall and Spring semesters)	2014 - Present
Environment in Crisis (Soil Science), ENVE 10 UC Merced	2013
History of Science and Technology (Clay Minerals), HIST 100 UC Merced	2012
Sustainability Science (War and Sustainability), ESS 2, UC Merced	2010, 2011, 2012
Physical Geography (Dynamics of soil organic matter), Department of Geography, University of Basel, Switzerland	2011
Terrestrial Ecosystem Ecology (Soil Science), ESS 124/ES 224 UC Merced	2010

Graduate Student Instructor or Teaching Assistant

Biosphere, – with Profs. Jill Banfield and Andrew Gutierrez. UC Berkeley	Fall 2004
Quantitative Aspects of Global Env't – with Prof. John Harte, Dr. Jim Williams. UC Berkeley	Spring 2003
Environmental Biology – with Prof. Ignacio Chapella. UC Berkeley.	Fall 2003
Oceanography – with Profs. Lynn Ingrham and Thomas Powell. UC Berkeley.	Fall 2002

Other teaching

Tirgigna Instructor (Eritrean language), Michigan State University	1998-1999
English, High School Teacher, Barka Comprehensive Secondary School, Asmara, Eritrea	1993-1994

Graduate student or Postdoc Advising, committees

Postdoctoral Scholars

Fernanda Santos (2015 - Present), *Dynamics of Pyrogenic carbon in the soil system AND Using NMR to infer effect of fires on composition of dissolved pyrogenic carbon*. Recipient of the UC Merced Chancellor's Postdoctoral Fellowship

Nathaniel Bogie (2017 - Present), *Effect of drought and variability of soil water input on soil carbon, aggregation, and water holding capacity*

Michael Kaiser (2009 – 2012), *Effects of common soil treatments (Ultrasonication, Air-drying and Rewetting, Pyrophosphate extractions on soil mineral and organic constituents AND Implications of combined application of biochar and CaCO₃ for carbon and nitrogen storage in silt-sized aggregates*; Now Senior lecturer and Research Associate at University of Kassel Germany. Starting as Assistant

Professor of Soil Chemistry; University of Nebraska, Lincoln January 2018.

Deoyani V. Sarkhot (2009 – 2010), *Using biochar to recapture essential nutrients (primarily nitrogen and phosphorous) from dairy wastewater AND effectiveness of biochar in reducing gaseous and dissolved losses of carbon and nitrogen from soil and implications for carbon and nitrogen fluxes from soil*; Now Project Coordinator at EcoPro, India

Graduate Students

Current Students

Lixia Jin (Ph.D. student, Environmental Systems Graduate Group, 2013 – Present), *Role of Iron and Aluminum Oxy(hydr)oxides on soil aggregation and its implications for persistence of soil organic matter*

Kimber Moreland (Ph.D. student, Environmental Systems Graduate Group, 2014 - Present), *Climatic controls on deep soil organic matter storage and stabilization along the Western Sierra Nevada Climosequence*

Morgan Barnes (Ph.D. student, Environmental Systems Graduate Group, 2014 - Present), *Biogeochemical cycling of essential elements in low-order catchments: effect of thinning and prescribed burning*. Co-advised by Stephen C. Hart

Manisha Dolui (Ph.D. student, Environmental Systems Graduate Group, 2017 - Present), *Vulnerability of carbon buried in paleosols to changing environmental conditions*

Leila Wehab (Ph.D. student, Environmental Systems Graduate Group, 2018 - Present), *Effect of changes in amount and timing of precipitation on Soil organic matter dynamics*

Past Student

Rebecca Lever (Ph.D. 2017 Environmental Systems Graduate Group, *Lateral distribution of pyrogenic matter by soil erosion: implications for determining mean residence time of pyrogenic carbon in soil* 2012-2017). Now Postdoctoral Scholar at Indiana University.

Chelsea Arnold (Ph. D. 2014 Environmental Systems, *Coupled biogeochemistry and hydrology of high elevation meadows in the Sierra Nevada Mountains and implications of large inter-annual fluctuations in weather*; co-advised with Teamrat A. Ghezzehei; Now Director of the CalTeach Program, Science and Math Initiative UC Merced)

Emma McCorkle (M.Sc. 2014. Environmental Systems Graduate Group, *Determining Source of Organic Matter Eroded from headwater catchments in the Southern Sierra Nevada, California*; 2012-Present, co-advised with Stephen C. Hart); Now Research Associate with the Reynolds Creek Critical Zone Observatory, Idaho State University

Samuel Araya (M.Sc. 2014 Environmental Systems Graduate Group, *Effect of Combustion Temperature on Soil and Soil Organic Matter Properties: A Study of Soils from the Western Elevation Transect in Central Sierra Nevada, California*, Now Ph.D student UC Merced)

Erin Stacy (M.Sc 2012. Environmental Systems, *Composition and stabilization mechanisms of organic matter in soils and sediments eroded from granitic, low-order catchments in the Sierra Nevada, California*; co-advised with Stephen C. Hart; Now Field Research Coordinator for the Southern Sierra Critical Zone Observatory, UC Merced)

Visiting Scholars

Ray Alves (2018, *Topographic controls on soil organic matter storage and composition in tropical ecosystems*, Visiting Student from the University of Brasillia, Brazil; Major Supervisor, Gabriela Bielefeld Nardotto)

Veronika Ullman (2018, *Climatic controls on soil phosphorous speciation*, Visiting Student from the University of Ausburg, Germany; Major Supervisor, Sebastian Doetterl)

Moritz Moinka (2018, *Carbon storage and stabilization mechanisms along the along the Merced Chronosequence*, Visiting Student from the University of Ausburg, Germany; Major Supervisor, Sebastian Doetterl)

Chun Liu (2017 - Present, *Role of topography and erosion in controlling dynamics of soil organic matter*. Visiting graduate student from Hunan University and State Key Laboratory of Soil Erosion and Dryland Farming on the Loess Plateau, Institute of Soil and Water Conservation, Chinese Academy of Science; Major supervisor Zhongwu Li)

Benjamin Sulman (2015 - Present, *Computer modeling soil carbon and nitrogen cycling within the Geophysical Fluid Dynamics Laboratory global land model. Specifically, building a new global model that includes the soil biogeochemical impacts of microbial activity and root-soil interactions*, Visiting Postdoctoral Scholar from Princeton University, Princeton, NJ; Major Supervisor Elena Shevliakova)

Kenton Stutz (2016, *Using ¹H-NMR to determine composition of dissolved organic matter in soil*, Visiting Graduate Student from the University of Freiburg, Germany; Major Supervisor, Friederike Lang)

Sebastian Dotterel (2015, *Pathways of carbon from plants and microorganisms into specific soil fractions*; Visiting Postdoctoral Scholar from University of Ghent, Belgium, Major Supervisor Pascal Boeckx)

Yaxian Hu (2014 - 2015, *Effect of aggregation on amount and composition of eroded soil organic matter*, Visiting Postdoctoral Scholar from the University of Basel, Switzerland, Major Supervisor, Nikolaus Khun)

Elisabet Nadeu (Ph.D. 2013, *Soil erosion and organic carbon mobilization at the catchment scale: factors, processes and impact on the carbon balance*; visiting graduate student from University of Murcia, Spain; Major Supervisor Carolina Boix-Fayos)

Dissertation, Thesis or Qualifying exam committee

Yocelyn Villa (UCM, Ph.D. Environmental Systems, 2017 – Present)

Nicholas Dove (UCM, Ph.D. Environmental Systems, 2015 – Present)

Susan Saltou (UCM, M.Sc. Environmental Systems, 2017 – Present)

Sara Martin (UCM, Ph.D. Environmental Systems, 2013 – 2017)

Mathew Jian (UCM, Ph.D. Environmental Systems, 2015 – 2017)

Joy Baccei (UCM, M.Sc., Environmental Systems, 2012 – 2014)

Curtis Hayden (UCM, M.Sc. Environmental Systems, 2013 – 2014)

Ammar Albalasmeh (UCM, Ph D.Environmental Systems, 2011 – 2013)

Donell Williams (UCM, Ph D. World Cultures, 2009 – 2010)

External Examiner

Laura Szymanski (Ph.D. program in Geography, University of Wisconsin, Madison)

Doreen Franke (Ph.D. program in Earth Sciences, Memorial University of Newfoundland) 2013

Yaxian Hu (Ph.D. program in Geography, University of Basel, Switzerland) 2011

Ulrike Hoffmann (Ph.d. program in Geography, University of Basel, Switzerland) 2011

Undergraduate Students (UC Merced only)

Javier Chanam (2018 - Present, ESS Undergraduate Student)
Mary Jo Baker (2018 - Present, ESS Undergraduate Student)
Yulissa Perez Rojas (2017 - Present, ESS Undergraduate student, UC LEADS scholar)
Matthew McClintock (2010-2012)
Steven Ho (Yosemite REU fellow 2010, Now working in Gallo Winery)
Justin Nunes (COINS fellow 2011)
Alexander Newman (COINS fellow, Southern Sierra CZO REU fellow, UCOP Carbon Neutrality Initiative Fellow 2012 – 2015)
Jennifer Guererro (USDA Scholar and COINS fellow, 2012 – 2013)
Abigail Dziegiel (Yosemite REU fellow 2013)
Laura Jelpa (USDA Scholar, 2013 – 2014)
Louis Meilke (Yosemite REU Fellow 2014)
Jim Mendez Lopez (UC LEADS fellow 2014)

Peer reviewer

Reviewer for Journal Papers and Book chapters (~12/yr):

Journal articles: Agriculture, Ecosystems, and Environment; Biogeochemistry; Biogeosciences; California Agriculture; Catena; Environmental Science and Technology; Earth Science Reviews; Earth Surface Processes and Landforms; Ecosystems, European Journal of Soil Science; Geoderma; Geochemica Cosmochemica Acta; Geology; Geophysical Research Letters; Global Change Biology; Hydrology and Earth System Sciences; Journal of Agriculture and Human Values; Journal of Environmental Quality; Journal of Geophysical Research – Biogeosciences; Journal of Soils and Sediments; Land Degradation and Development, Nature – Climate Change, Nature – Geosciences; Plant and Soil; PLOS ONE, Proceedings of the National Academy of Sciences; Quaternary Research; Soil Biology and Biochemistry; Soil Science Society of America Journal.

Book publishers: ACSESS Books

Reports: California's Fourth Climate Change Assessment Report

Institutions: US Geological Survey; US Department of Agriculture Forest Service

Book Proposal Reviewer:

Yale University Press
Academic Press

Proposals (Review Panels):

National Science Foundation – Ecosystem science cluster, DEB

National Science Foundation – Low temperature geochemistry & geobiology program, EAR
 National Science Foundation Plant Pathology Program and the Bill & Melinda Gates Foundation -
 Basic Research to Enable Agricultural Development (BREAD) Program
 US Department of Agriculture – Agriculture and Food Research Initiative (AFRI, NIFA)
 US Department of Agriculture, ARS Inter-mural Panel – Office of Scientific Quality
 National Academy of Science and US AID, Partnerships for Enhanced Engagement in Research
 (PEER) Science Program
 Deutsche Forschungsgemeinschaft (DFG)

Proposals (ad-hoc reviewer):

National Science Foundation, Geobiology and Low Temperature Geochemistry
 National Science Foundation – Ecosystem science cluster, DEB
 National Science Foundation, Plant Pathology Program and the Bill & Melinda Gates Foundation -
 Basic Research to Enable Agricultural Development (BREAD) Program
 Department of Energy, Early Career Research Program
 Department of Energy, Graduate Fellowship Program
 Natural Reserve System Mildred E. Mathias Graduate Student Research Program
 Pacific Northwest National Laboratory
 Stanford Linear Accelerator Center
 University of California President’s Postdoctoral Fellowship Program
 American Chemical Society, Petroleum Research Fund
 Research Foundation - Flanders (Fonds Wetenschappelijk Onderzoek - Vlaanderen, FWO).
 ETH (Swiss Federal Institute of Technology) Zurich Research Commission
 Clemson University Experiment Station
 The Austrian Science Fund

Professional (Society) Service

The National Academies of Sciences, Engineering, and Medicine

Chair, The U.S. National Committee for Soil Sciences (USNC/SS)	2016 - Present
Member, The U.S. National Committee for Soil Sciences (USNC/SS)	2011 - 2016
Board Member, Board on International Scientific Organizations	2015 - Present
Planning committee member, U.S. National Academies workshop on <i>Soils: The foundation of Life</i> . Washington, DC; held December 5, 2016	2015 - 2016
Chair, US National Academy of Science delegation to the 21st World Congress of Soil Science	2018
Member, Membership Growth and Retention Task Force <i>Soil Science Society of America</i>	2017-Present

(Co-)Organization of scientific meetings

Faculty coordinator of the Enviro-Lunch Seminar Series, UC Merced (previously known as the Castle Environmental Systems Seminar series)	2010 - Present
--	----------------

Cross-Divisional Symposiums and Session co-coordinator, *Soils Across Latitudes: 2018-2019 International Soils Meeting* 2018

Biogeochemical Cycles of Essential Elements (with Jennifer Pett-Ridge)

Coupled Soil Biogeochemical and Physical Processes Across Scales (with Teamrat A Ghezzehei and Yan Jing)

Role of Soils in Mediating the Critical Zone (with Justin Richardson and Alain Plante)

Scientific Committee Member *6th International Symposium on Soil Organic Matter*, jointly organized with the British Society of Soil Science. Rothamsted Research, Harpenden, UK from 3rd – 8th September 2017. 2016

Session co-organizer for Organic Matter Dynamics as Controlled by Erosion and Deposition, Goldschmidt Conference 2016. Yokohama, Japan 2015-2016

Session co-organizer for Organic Matter Dynamics as Controlled by Erosion and Deposition, during the Conference on Critical Zone Science, Sustainability, and Services in a Changing World. Oct 22-24, 2015. Purdue University 2015

Organizing committee member, Chapman Conference on *Soil-mediated drivers of coupled biogeochemical and hydrological processes across scales*, National Academy of Science and American Geophysical Union 2012 - 2013

Co-convenor and session organizer: Soil erosion, transport and deposition and their control over biogeochemical cycling of essential elements. American Geophysical Unions Annual Fall Meeting December 2013, San Francisco CA 2013

Convener and Session Organizer, Soils: Mechanisms of Carbon Stabilization and Response to Climate Change. *American Geophysical Union Fall Meeting*, September 10-14, 2007. San Francisco, CA 2007

Session chair, Carbon Cycling and Soil Processes. *Ecological Society of America Annual Meeting*, August, 2007. San Jose, CA 2007

Activities aimed at supporting and/or evaluating student participation in Professional meetings

Co-coordinator, Outstanding Student Paper Award, Biogeosciences section of the American Geophysical Union 2012

Reviewer, Student Travel Grant, American Geophysical Union 2012

Judge, Student best poster presentation competition, AGU annual meeting 2009 - 2012

Judge for student presentation, Society for Ecological Restoration Neering Award, ESA 2007

University Service

Academic Senate (UCM or UC)

Vice Chair, Committee on Diversity and Equity 2018 - Present

Merced Division of the Academic Senate's representative to the University Committee on Affirmative Action, Diversity, and Equity (UCAADE), UC Office of the President

D&E representative, Advisory Council on Campus Climate, Culture and Inclusion (CCCI)

Member, Academic Planning Work Group

Member, Committee on Faculty Welfare, Diversity, and Academic Freedom (FWDAF) 2012 - 2014

Member, Faculty advisory committee of the *UC President's Postdoctoral Fellowship Program*; University of California Office of the President 2017-Present

Chair, UC Merced Chancellor's Postdoctoral Fellow selection committee	2018
Search committees and/or Appointment and Review cases, UC Merced and UC Office of the President	
Member, Search Committee for UC Merced Provost and Executive Vice Chancellor	2018
Member, Tenure review committee, Life and Environmental Sciences unit, UC Merced	2017 - 2018
Chair, Isotope (Bio)Geochemistry and Ecology Faculty position	2016 - 2017
Chair, Stable Isotope Staff Research Associate position	2016 - 2017
Chair, Adjunct Associate Professor	2017- 2018
Member, NMR Facility Director; School of Natural Sciences; UC Merced	2015
Member, Merit review committee, Life and Environmental Sciences unit, UC Merced	2015
Member, University of California Vice Chancellor for Agriculture and Natural Resources	2015
Member, Ecology faculty position – UC Merced School of Natural Sciences	2011 - 2012
Earth System Science Undergraduate Major, UC Merced	
ESS program Faculty advisor	2017
ESS Program Review working group	2009 - 2011
Lead coordinator, Development of the Environmental Science and Sustainability Minor	2010
Environmental Systems Graduate Group, UC Merced	
Member, Executive committee	2016 - Present
Chair, Admission and Recruitment committee	2013 - 2015
co-Chair, Admission and Recruitment committee	2012 - 2013
Member, Admission and Recruitment committee	2010 - 2012
School of Natural Science	
Executive Committee Chair, UC Merced	2015 - 2016
Executive Committee Member, UC Merced	2014 - 2015
SE1 Space Committee, UC Merced	2012
Liaison, UC Merced Castle campus Transportation and Parking Improvements	2010
UC Merced Graduate Division	
Panelist, New graduate student orientation week (GROW) - International student Day	2016, 2017
Panelist, UC Merced Graduate Division on Developing Successful Strategies for Securing Graduate Research Fellowships	2014
Panelist, UC Merced Graduate Division on Writing Effective Reference Letters for Students Applying for Graduate Research Fellowships	2014
Sierra Nevada Research Institute (SNRI), UC Merced	
Chair, Advisory Committee	2016 - Present

Member, Advisory Committee 2015 - 2016

Head, SNRI Environmental Analytical Lab users group 2010 - 2013

Faculty Advisory Committee Member, Environmental Analytical Laboratory, UC Merced 2017 - Present

Seminar or Workshop organization - UC Merced and UC Berkeley

Faculty coordinator, Enviro-Lunch Seminar series 2014 - Present

Co-organizer Sustainability Panel, showcasing recent University of California, President's Postdoctoral Fellows (aimed at encouraging increased recruitment of President's Postdoctoral fellows for faculty positions in the UC system) 2015 - 2016

Coordinator, Castle Environmental Systems Seminar Series 2010 - 2015

Coordinator, Environmental Systems Seminar Series 2009

Coordinator, Berkeley NanoGeoChemistry meeting series, UC Berkeley 2006 - 2007

Student representative, Ecosystem Sciences Division, UC Berkeley 2003 - 2004

Graduate Assembly delegate for student in the Department of Environmental Science, Policy and Management, UC, Berkeley 2001 - 2002

Outreach, Education, Mentoring, and Diversity related service

Earth Science Women's Network (ESWN)

Leadership Board Member 2016 - Present

** In 2018 ESWN won the Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring (PAESMEM), the highest honors bestowed upon mentors who work to expand science, technology, engineering and mathematics (STEM) talent*

New member welcoming committee 2008 - 2013

Curriculum development and consulting *Lawrence Hall of Science*, Berkeley, CA.

Science Advisor, Matter and Energy in Ecosystems curriculum development, Learning Design Group 2014 - 2018

Model Scientist for The Roots of Knowledge Project "*Walk in the Woods*" [K-12 teaching guide, see <http://store.lawrencehallofscience.org/Item/walk-in-the-woods-seeds-of-science>] 2003 - 2006

Leadership and Advisory Positions related to Diversity and Outreach

Partner, The Sparks for Change Institute: Leading diversity in the geosciences 2017 - Present

Advisory Board Member, *Promoting Geoscience Research, Education and Success, PROGRESS* - part of the National Science Foundation supported *Improving Undergraduate STEM Education, IUSE, project* 2016 - Present

Advisory Board Member, *500 Women Scientists* 2017 - 2018

Advisory Board Member, *Understanding and Addressing STEM Inequalities* working group. University of California, Merced 2016-2017

Co-Founder and Steering Committee member, Women in Science, Technology, Engineering and Math (Women in STEM) Group, University of California, Merced 2014 - 2016

Research member, California Governor's Office of Planning and Research, Biochar Research Advisory Group 2017 - Present

- Member, African and Diaspora Studies Working Group, UC Merced 2013 - 2015
- Guest teacher or workshops with local k-12 students and schools
- Guest lecture *The Living Soil*. Luther Burbank Elementary School (3rd Grade GATE class), Merced, CA. 2018
- Guest lecture *The Science of Soils*. 2nd grade Luther Burbank Elementary School, Merced, CA. 2018
- Speaker, *Dinner with a Scientist*, a joint Merced County of Office of Education and University of California, Merced event. 2018
- Speaker and Lab tour, *Soil Science*. Mariposa Highschool Students visiting Berhe Biogeochemistry Lab for tour and discussion. 2018
- Guest Speaker: *On being a scientist*, Merced STEAM Center 2017
- Climate change: what's soil got to do with it?* Burbank Elementary School, Merced, CA. 2017
- Speaker, *Women in Earth Science Day - Introduction to soil science and STEM career*, Warm Springs Elementary School. Fremont, California. 2017
- Speaker and Lab tour, *Soil Science*. Mariposa Highschool Students visiting Berhe Biogeochemistry Lab for tour and discussion. 2017
- Speaker, *Dinner with a Scientist*, a joint Merced County of Office of Education and University of California, Merced event. 2015
- Lab visit, demonstration and *introduction to soil science and biogeochemistry* with students from Mariposa High school (Mariposa, CA) 2015
- Guest lecture *Soil Science*, Luther Burbank Elementary School (4th Grade GATE class), Merced, CA. 2015
- Guest lecture *Physical Sciences, States of Matter*. 3rd grade Gifted and Talented Education class, Luther Burbank Elementary School, Merced, CA. 2015
- Guest lecture *Decomposition and Soil Formation* (using the Walk in the Woods book), Google hangout with two second grade classes from Nueva School, Hillsborough, CA 2014
- Guest lecture *Soil Science*. 2nd grade Gifted and Talented Education class, Margaret Sheehy Elementary School, Merced, CA. 2014
- Workshops and seminars aimed at career development and success of Early Career Scholars; and/or improve success, recruitment, and retention of Underrepresented Minority Scholars:
- Panelist, Faculty Panel: Transitioning from Postdoc to Academia or Industry; Postdoc appreciation week event, UC Merced 2018
- Invited Faculty discussant: *Fiat Lux Faculty Receptions* at UC Merced. 2012 - Present
- Panelist, Faculty of Color Luncheon. UC Merced 2018
- Speaker and Panelist, "The Critical Politics of Diversity in the University: Towards Africana Studies in the UC System." UC Merced 2017
- Panelist, Advisor/advisee relationships and communications. UC Merced Graduate Students Professional Development Course. 2017
- Panelist, Forum on Academic Job Search, *President's Postdoctoral Fellowship Program Annual Meeting*. Oakland, CA 2017
- Panelist, Forum on Curriculum vitae, *President's Postdoctoral Fellowship Annual Meeting*. Oak-

- land, CA 2017
- Panelist, *Northern California Diversity Forum: Life Sciences, and Physical Sciences and Math at UC Merced* 2017
- Panelist, *W-STEM Q&A: advancement and empowerment of women in STEM at the University of California, Merced* 2017
- Career discussion - effective strategies for success in grad-school and pursuing an academic career path. Sponsored by the Solving Earth System Problems: *UW, Madison Distinguished Speakers Lecture and Career Talks Series. University of Wisconsin, Madison.* February 10, 2017 2017
- Speaker, How to Fund your Ph.D. *GEMS GRAD Lab, University of California, Irvine.* 2016
- Panelist, *1st workshop for the Summer Undergraduate Research programs at UC Merced (AiMM REU, ARCHIMEDES REU, MARC, UC LEADS, and CAMP): "Getting the Most out of your Research Experience"* 2015
- Panelist, Forum on Dissertation Funding and Predoctoral Fellowships, University of California, Merced Graduate Division Professional Development Forum 2015
- Panelist, Balancing Academic Life and Family, *President's Postdoctoral Fellowship Program 30th Anniversary Celebration and Annual Meeting.* Oakland, CA 2014
- Panelist, Strategies for survival: race, gender and sexuality in Academia. *President's Postdoctoral Fellowship Annual Meeting.* UC Office of the President, Oakland, CA 2013
- Speaker, *UC Merced Faculty diversity workshop - Overcoming Diversity Challenges in Graduate Education* 2013
- Speaker, *Women in Science, Technology, Engineering, and Math (STEM) workshop, My academic journey.* UCM 2013
- Speaker, *UC Merced International Women's Day celebration.* Lessons from my academic journey. 2011
- Speaker, Women in Science and Engineering speakers series, UC Merced 2010
- Panelist, The Academic Job Search, *President's Postdoctoral Fellowship Annual Meeting.* Oakland, CA 2010
- Exhibitor, *UC Merced Graduate Recruitment at UC Davis Graduate fair* 2008
- Panelist and Session chair, From Student to Scientist; Finding a Postdoc & Life as a Postdoctoral Scientist . 2nd and 3rd *Annual Retreat of Berkeley Edge* (a recruitment, retention and advancement program for traditionally underrepresented minority graduate students in science, mathematics and engineering, UC Berkeley) 2007, 2008
- Workshops for Faculty development
- Panelist, Early Career Award Recipient Panel, UC Merced Research and Development Services Grant Writing Institute 2014, 2015, 2017
- Panelist, Surviving and Thriving as Faculty of Color and International Faculty, University of California, Merced Graduate Division Professional Development Forum 2015
- Panelist, Dual Careers in Academia – The Good, the Bad and the Ugly. Goldschmidt Conference, Sacramento, CA 2014
- Student (undergraduate and graduate) mentorship and/or student activity support in meetings, or short training programs

Mentor, Minorities Striving and Pursuing Higher Degrees of Success (MSPHD's) in Earth System Science Initiative 2007 - Present

Judge, Undergraduate Student Research Presentations, University of California's Leadership Excellence through Advanced Degrees (UC LEADS) Annual symposium, University of California, Merced, CA March 21, 2015 2015

Mentor, two graduate student researchers during the Goldschmidt Conference, Sacramento, CA 2014

Mentor, undergraduate student researcher through the USDA Scholar Program 2012 -2013

Mentor, undergraduate student researcher through the Center of Integrated Nanomechanical Systems (COINS) program 2010, 2012 - 2013

Judge, Student poster competition at the California Alliance for Minority Participation (CAMP) Annual Symposium at UC Irvine 2013

Mentor, undergraduate student researcher through the NSF- Yosemite REU program 2010

Mentor (two students) and Freshman Welcome Program volunteer, UC Berkeley 2005

Co-founder and President of Eritrean Students Union, Michigan State University 1999-2000

Media and Policy

- 2018** Media coverage for our Nature Geoscience paper
[UC Merced Press Release](#); [Phys.org coverage](#); [University of Vienna Press release](#); [IDW scientific information service](#); [University of Ausburg](#); [Wiener Zeitung](#)
- 2018** Interviewed by *Nature News* for the article "Sexual harassment is rife in the sciences, finds landmark US study" [Link to the article](#)
- 2018** Interviewed by *Outside Magazine* for the article "The Harassment Problem in Scientific Dream Jobs". [Link to the article](#)
- 2017** Featured Guest, *Voice of America* Tigrigna Program "Interview with Dr. Asmeret Asefaw Berhe, Professor at University of California, (Merced)" [Link to video at VOA site](#)
- 2017** Media coverage of our new National Science Foundation award, NSF-ADVANCE Partnership: *From the Classroom to the Field: Improving the Workplace in the Geosciences*. [Link to webpage with a list of several articles published on our ongoing project](#)
- 2017** Featured #WCWinSTEM (Woman Crush Wednesday in STEM), *#WCWinSTEM: Asmeret Asefaw Berhe, Ph.D.*. Vanguard STEM, Vanguard: Conversations with Women of Color in STEM
- 2017** Featured scientists, *500 Women Scientists*. Asmeret Asefaw Berhe: "Staying in the Game" [Link to interview text at 500WS website](#)
- 2016** Featured Scientist, *How a girl who loved learning became a top soil scientist*. Sally Ride Science at University of California, San Diego. [Link to the article](#)
- 2016** Media coverage of our University of California President's Research Catalyst Award, *UC Consortium for Drought and Carbon Management*.
 UCR Today (University of California, Riverside); University of California, Merced; University of California, Berkeley; California Naturalist; Agriculture is America; UC ANR Green Blog; California Water News Daily

2015 Guest, Down on the Farm with Tom Willey on KFCF 88.1 FM in Fresno, CA (July 3, 2015 to discuss Soils and Human Security), [Link to the interview](#)

2015 Media coverage of Science paper on Soils and Human Security in the 21st Century

News coverage of the paper published in Science (2015) in The Independent UK, Newsweek, Grist, The Weather Network, International Business Times, All Africa, Times of India, Nature World News, Science World Report, The Science Times, Phys.org, Innovation Toronto, Imperial Valley News, SciDev.Net, and others

2015 Spotlight at *Identify with a Scientist*. The PROGRESS (PROmoting Geoscience, Research, Education and Success) Program. A partnership among five universities in the CO,WY Front Range (Colorado State University, University of Colorado-Boulder, University of Wyoming, Colorado College, and Metro State University) and four universities in the Carolinas (University of North Carolina-Charlotte, University of South Carolina, North Carolina State University, and University of North Carolina A&T).

2014 Congressional visits to discuss federal funding for science with (Washington DC, May 7, 2014):

- Congressman James Manuel "Jim" Costa, U.S. Representative for California's 16th congressional district;
- Congressman Gerald M. "Jerry" McNerney, U.S. Representative for California's 9th congressional district;
- Congressional staff from the offices of Congressman John Raymond Garamendi (CA 3rd congressional district), Congressman Tom McClintock (CA, 4th Congressional district), Denham (CA 10th congressional district), and David G. Valadao (CA 21st congressional district); and
- Senate staffers from the offices of Senator Diane Feinstein and Senator Barbara Boxer.

2014 Media coverage of NSF Early Career Development award

News coverage of my NSF CAREER award in The Merced Sun Star, Sacramento Bee, and Valley Online News. And highlight by the University of California Office of the President's President's Postdoctoral Fellowship program

2014 Highlight by the Hellman Family Foundation

Interview on successful project funded by Hellman Family Foundation's grant for early career scientists in 2011

2014 Highlight by the Earth Science Women's Network (ESWN)

2007 Media coverage of Bioscience paper on Role of Erosion on soil carbon sequestration

Highlights of the work published in Bioscience (2007) appeared in California Magazine, View from LBL, Science at Berkeley Lab, and Conservation Magazine (link)

2007 US Department of Agriculture, National Research Initiative highlight of work on the role of soil erosion and terrestrial carbon sequestration
